Camelia cat. C

Tessuto composto prevalentemente da fibre cellulosiche come viscosa, cotone e lino, con una piccola percentuale di fibre sintetiche per migliorarne la resistenza e la versatilità. Ideale per utilizzo nel settore dell'arredamento domestico, si distingue per la qualità e l'estetica. Il tessuto subisce un trattamento ammorbidente interno che gli conferisce una mano particolarmente morbida e gradevole al tatto.

Fabric primarily composed of cellulosic fibers such as viscose, cotton, and linen, with a small percentage of synthetic fibers to enhance its durability and versatility. Perfectly suited for use in the home furnishing sector, it stands out for its quality and aesthetic appeal. The fabric undergoes an internal softening treatment, which gives it an exceptionally soft and pleasant feel to the touch.

COMPOSITION:

49% Viscose, 25% Cotton,
12% Linen, 12% Polyester, 2% Other

Cassia cat. C

Morbida ciniglia di cotone intrecciata con un filo grosso noto come chenille, questo tessuto si distingue per la sua texture soffice e l'aspetto simile al velluto. Le tonalità, che spaziano dai colori tenui a quelli più vivaci, richiamano principalmente le sfumature della natura, offrendo un prodotto elegante e versatile, ideale per creare un'atmosfera accogliente e raffinata.

A soft cotton chenille woven with a coarse thread known as chenille, this fabric is distinguished by its soft texture and velvet-like appearance. Ranging from soft to bright colors, the hues are mainly reminiscent of shades of nature, offering an elegant and versatile product that is ideal for creating a cozy and refined atmosphere.

Calla cat. C

La struttura di questa proposta è estremamente semplice e al tempo stesso duttile, pensata per adattarsi a una vasta gamma di utilizzi. Realizzata con un filato ecologico riciclato, si distingue per l'ampia gamma di colori disponibili, che permettono di soddisfare esigenze estetiche diverse. Questo prodotto risponde pienamente alla crescente attenzione del mercato verso soluzioni sostenibili e a basso impatto ambientale, unendo funzionalità e rispetto per l'ecosistema.

The structure of this proposal is extremely simple yet ductile, designed to adapt to a wide range of uses. Made from an environmentally friendly recycled yarn, it is distinguished by the wide range of colors available, allowing different aesthetic needs to be met. This product fully responds to the growing market focus on sustainable and environmentally friendly solutions, combining functionality and respect for the ecosystem.

COMPOSITION:
81% Cotton, 19% Polyester

Camomilla cat. C

L'insieme di filati di lino e viscosa dona al tessuto un tocco di maggiore pregio, seguendo la nuova tendenza verso l'uso di fibre naturali. Questa scelta risponde a uno stile di vita sempre più orientato alla sostenibilità e al benessere quotidiano. Il prodotto è trattato con nanotecnologia Zero Spot, che lo rende resistente all'effetto di bagnatura dell'acqua e ne aumenta la durata, coniugando estetica, funzionalità e attenzione all'ambiente.

The combination of linen and viscose yarns gives the fabric a more premium feel, following the new trend toward the use of natural fibers. This choice responds to a lifestyle increasingly oriented toward sustainability and daily well-being. The product is treated with Zero Spot nanotechnology, which makes it resistant to the wetting effect of water and increases its durability, combining aesthetics, functionality and environmental care.
